Alysson observes her body with wariness.  
Evanne spins until dizziness makes him fall.  
Amina cannot manage to utter words clearly.

On the Franco-Belgian border, there's a unique place that takes in children with mental and social problems. Day after day, the adults try to understand the enigma that each one of them represents and invent the solutions that will help them to live in peace. Through their stories, *Like an Open Sky* reveals their singular vision of the world to us.
